THE FUTURE OF HOSPITALITY MANAGEMENT

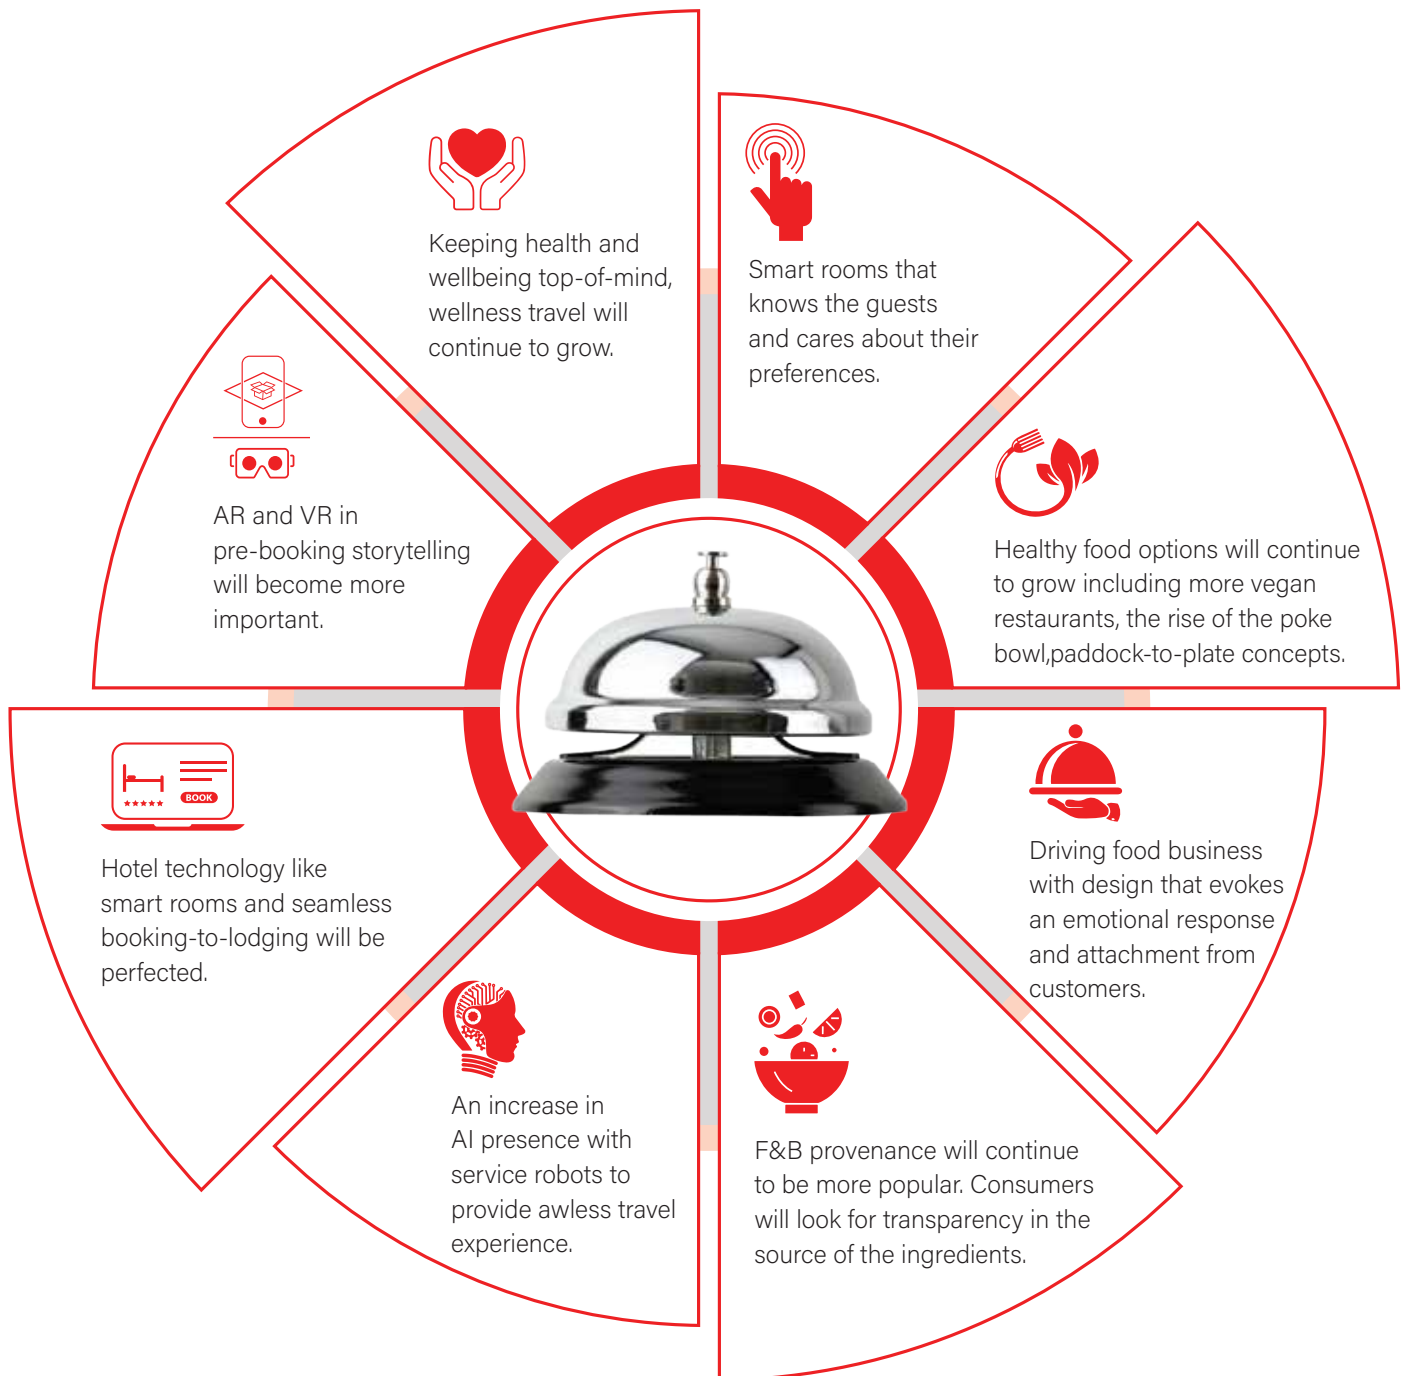

The 4th Industrial Revolution

At IIMS, we are constantly keeping ahead to ensure we future-proof our students. As we enter the 4th Industrial Revolution (4IR), advancements will change how we work, play and live. The revolution is characterized by a range of new technologies that are fusing the physical, digital and biological worlds, impacting all disciplines, economies and industries, and even challenge the status quo of education and its graduates.

With technology and mobile app adoptions, we will never have to worry about transportation with e-hailing rides in foreign countries. Maps are accessible on mobile, and hotels are not just the option for accommodation with the familiarity of AirBnB. People are savvy to find food places that are highly-rated. And this is only the beginning. With the gaining adoption of VR, one can travel the world, shop, all from the comfort of their own living room.

The hospitality, tourism and culinary arts sectors are growing at an exponential pace and IIMS prides itself on matching every stride of this growth. With its dynamic programmes and outlook, it is obvious why IIMS leads the way for hospitality education in Nepal. The facts are clearly in the figures for this achievement and IIMS continues to raise the bar as a highly-admired award winning.

HERE ARE SOME TRENDS AND IDEAS HEADLINED GLOBALLY:

We continuously focus to research what's ahead to ensure we have the capacity, skills and knowledge to equip our students with unconventional teaching and learning methods.

“

IIMS has always been a path of opportunities for me, I learned the base of culinary here and later implemented it in the Hotel kitchen, found career oriented friends and very helpful lecturers who helped me to be who I am today.
